

Hammer drill bit

# ULTIMAX

Ø 16 to 45 in overall length 200 to 850 mm

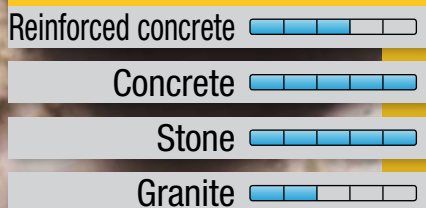

made in France

55

## PERFORMANCE

## 6 Cutting edges

With centering tip.  
Does not bind in concrete.  
Improved hole concentricity.

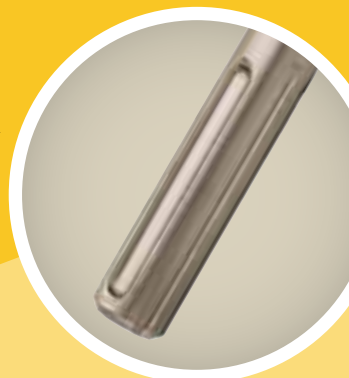

## 2 flutes

Long life and robustness.  
Perfectly controlled dust removal.  
Reduced vibration

## SDS-max Shank

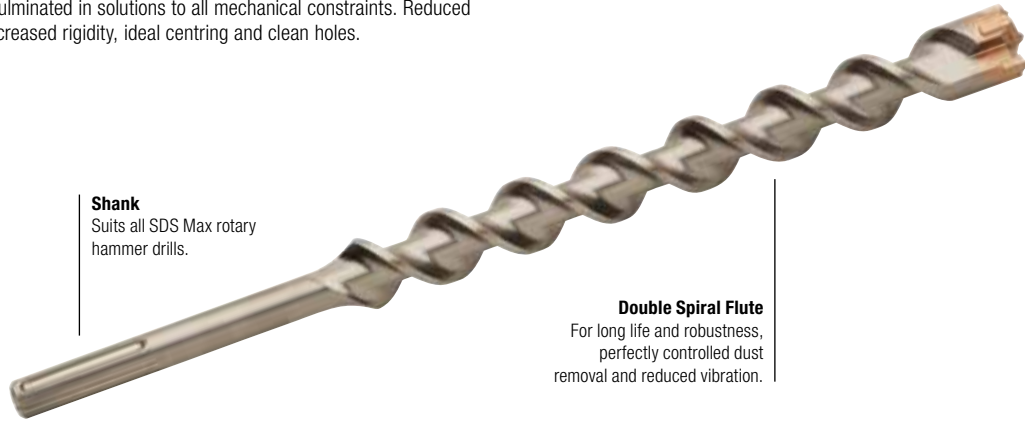

# DIAGER®

With drill robustness, precision, long life and speed the Ultimax was developed for deep drilling through reinforced concrete. Studies on material resistance and tests under extreme conditions have culminated in solutions to all mechanical constraints. Reduced vibration during drilling, increased rigidity, ideal centring and clean holes.

**6 Cutting Edges**  
Self centering tip. Does not bind in concrete. Improved hole concentricity.

**Shank**  
Suits all SDS Max rotary hammer drills.

**Double Spiral Flute**  
For long life and robustness, perfectly controlled dust removal and reduced vibration.

<b>Discount Group</b>	A0608
<b>Surface Finish</b>	Sandblasted
<b>Material</b>	TCT
<b>Point Type</b>	6 Cutting Edges
<b>Packaging</b>	Plastic Tube
